ARE NOT IN FAVOR OF QUITTING NOW

GREEK STATESMEN ARE EAGER FOR WAR.

King George's Fleet Ready to Go Into Action—One Successful Engagement Will Restore the Confidence of the Troops in Their Leaders, It Is Said.

London, May 4.—The chief points of interest in the war situation are: First, that the decision of the ministers who have returned from the Greek frontier seems to be in favor of a continuance of the war, and, second, that fighting continued almost incessantly from last Tuesday until Sunday, with the result that Gen. Smolenski has been prevented from actually assuming his new duties as chief of staff. As a further result, the Greeks at Velesino have managed to retain their positions, but they are too much fatigued to follow up their success.

Altogether fourteen officers have been recalled from Crete to be sent on to Thessaly, and this also is a proof of the intention of the new cabinet to continue the war. The movement is actuated by necessity. All the best officers are being sent to the front, nor is there any intention yet displayed to evacuate Crete.

The Turkish army is advancing in three columns on Pharsala, while an additional column is operating in the direction of Volo. As the Volo column could easily take Velesino in the rear, the Greek position is very precarious. This probably explains the retention of Gen. Smolenski there, as it was natural to expect him to go to Pharsala to assume the supreme command. Everything points to an inevitable retreat by the Greeks on Domokos.

A dispatch to the Morning Post from Kavassarra says that the Greek squadron at Prevesa is passively awaiting orders, and that the Prevesa forts bombarded Actium on Saturday.

The Daily Telegraph's correspondent at Volo says that the foreign warships have moved further out, leaving the Greek fleet free range, and that the Greek fleet has sent four heavy guns to Velesino.

The Standard's correspondent at Volo says that the Greek fleet is taking positions to shell the heights of the defile leading to Macriniza in case the Turks succeed in turning the Greek flank and marching to Volo.

The Times has the following dispatch from Velesino: "During the fighting here last week the Greek losses included Officer and Deputy Splytzi, who was killed. It is rumored that many officers have told the Crown Prince Constantine that they will return their swords unless they are led against the Turks. There is a strong feeling at Pharsala that the troops must advance. The despair over the mistakes of the campaign has given place to a desire to regain the esteem of Europe. Only 4,000 soldiers are actually posted at Pharsala. The remainder are distributed in well-chosen positions. Discipline is improving, though organization is still somewhat defective."

PEACE NOT WANTED.

Greece Not Yet Ready to Talk Unconditional Surrender.

Athens, May 4.—It is said here on good authority that the powers have made overtures to Greece on the subject of peace, but that the government declines to invoke the mediation of Europe. The king has decided to remain here for the present.

It appears that the Turks asked an armistice in order to bury their dead. The request was referred to the commander in chief, from whom no definite reply is forthcoming, but the armistice is tacitly observed.

The Greeks speak with emotion of the enemy's gallantry. The Turks had evidently planned to surprise the Greek military authorities before they could recover from the bewilderment of the retreat from Larissa and to intercept the railway at Velesino, thus cutting off Pharsala from the nearest base of supplies and pushing in a strong wedge of troops in order to threaten Volo and Pharsala. They could have been captured or annihilated if there had been sufficient rolling stock to transport Greek re-enforcements from Pharsala, or if Gen. Smolenski's troops had not been too tired to attempt a flank movement.

"PITCHFORK BEN" MEETS MR. MORGAN

FIERY STATESMEN ENTERTAIN THE SENATE.

Harsh Words Used by the North Carolina Senator—Quick Action on Tariff Bill Looked For—Money For Heirs of Lynched Italians—Some Washington News.

Washington, May 4.—Senator Tillman of South Carolina was heard from briefly and pointedly in the Senate Monday, after a silence of many weeks, and his remarks served to arouse a lively controversy.

It all occurred during the consideration of the free homestead bill. Mr. Morgan proposed an amendment, giving all public lands unoccupied by 1900 to the several states and territories. Mr. Hawley declared this to be a startling proposition, and Mr. Tillman sought to oppose it by a series of questions addressed to Mr. Morgan. Some of the questions referred to the amendment as a proposition to "gobble" and "steal" the interest of states in public lands. The Morgan amendment was finally withdrawn and an agreement reached for a final vote on the free homestead bill at 3 p. m. today.

Early in the day Mr. Morgan endeavored to secure a vote on the Cuban resolution. It went over, however, at the request of Mr. Hale of Maine, in order that speeches in opposition may be made.

In the House a Senate resolution appropriating \$50,000 for the congress of the Universal Postal Union was adopted.

Action Will Be Speedy.

Washington, May 4.—The outlook for action on the tariff bill by the finance committee has improved. The Republican members had a further consultation with the Democrats Monday, and while the latter were unwilling to agree to the request that the bill be reported without consideration, they indicated a willingness to have the question of immediate action put before the committee, after the bill has been two or three days before them, and if the motion should carry, then they would make no further request for time in committee.

Morgan Opposes the Treaty.

Washington, May 4.—The executive session of the Senate Monday was devoted largely to the consideration of the Anglo-American arbitration treaty, which is to be voted upon Wednesday. Senator Morgan spoke at length, maintaining that it was a mistake for this country to enter into such an alliance with Great Britain as was involved in the ratification of the treaty, even in its amended form.

For Lynched Italians' Heirs.

Washington, May 4.—President McKinley Monday sent to Congress a message concerning the lynching of three Italians at Hahnville, La., on the night of August 8, 1896, named Salvatore Arena, Giuseppe Ventrella and Lorenzo Saloridino. He recommends an appropriation of \$6,000 for the heirs of the persons, without admitting the liability of the United States in the premises.

Strike Is Nearly Over.

Chicago, May 4.—The entire membership of the Plumbers' Union, and nearly all of that of the Journeymen Steamfitters' Union joined the ranks of the building trades strikers yesterday, but notwithstanding there were not as many men out as on Saturday, and it was said that the worst of the trouble was over. It is said that there are now less than 100 ironworkers on strike. Officers of the Building Trades council say there are not more than 2,000 men on strike in all the trades, although there are a good many others who are involved through sympathy.

Miners Ask for Arbitration.

Springfield, Ill., May 4.—The employees of the Gartside coal mine at Murphysboro have filed with the state board of arbitration a petition, asking for an arbitration of existing difficulties at that mine, alleging that the owners of the mine have made a general reduction of 10 per cent in wages, which is less than they can work for and make a living. As the operators have not joined the employees in the request for arbitration, there can be none at present.

Those who marched were all foreigners, mostly Polish laborers.

HE OPPOSES PEACE TREATY

Senator Teller States His Objection to the Measure.

Denver, Colo., May 4.—Senator Teller, who is paired on the arbitration treaty, has expressed himself freely against that measure in an interview. He questioned whether the senate

SENATOR TELLER.

could thus legally surrender one of its constitutional prerogatives and said that few senators believed that it was wise to do so if it were possible. "Great Britain," he said, "will not go to war with us unless it appears to her to be to her best interests to do so, and no one acquainted with the history of that country for the last 200 years can believe that a treaty would stand in the way of war if her interests could be served by war."

THEY ASK FOR A SHORTER DAY

Labor Will Make a Big Fight for Eight Hours.

Washington, May 4.—President Samuel Gompers of the American Federation of Labor left Sunday night for a tour through the state of New York in compliance with the instructions of the executive council, which met here last month for the purpose of organizing and putting in motion the grand crusade for an eight-hour day. He will speak to the workmen of Buffalo, Syracuse, Rochester and other cities in that state this week, and it is expected that from this time on Mr. Gompers will give most of his time to the eight-hour movement. It is proposed to interest unorganized labor as well as the unions in the agitation, in order that there may be a united demand from all employees throughout the United States upon their employers on the 1st of May next for a shorter day.

The immediate cause of his death was paresis.

Indianapolis, May 4.—Governor Mount's request that the body of ex-Governor Porter be allowed to lie in state at the state capitol has been denied by the family. The funeral will be without ostentation and in keeping with the life of the former executive, who was one of the plain people.

Exposition Gates Were Closed.

Nashville, Tenn., May 4.—The gates of the Tennessee Centennial Exposition were closed Sunday against all but those who are hurrying to get their exhibits in place. The big engines, set into motion by President McKinley Saturday, were at rest, the beautiful grass-bordered walks were deserted and the visitors in the city went to church or wandered about through the picturesque streets. The Sunday closing laws are strict in Tennessee, and so far no attempt has been made to bring about the opening of the fair on the Sabbath.

A BUSY SESSION
OF THE COUNCIL

MUCH ROUTINE WORK WAS
DONE LAST NIGHT.

Bonds of the Assessors and Fire and Police Commissioners Are Approved—Build Walks and Plant Trees In the Parks—Conference Is Held After The Regular Session.

At the meeting of the common council held last evening, the aldermen: Approved the bonds of the assessors and the members of the board of fire and police commissioners.

Accepted the invitation from Oriental Lodge No. 22, Knights of Pythias, to attend the reception to be given during the session of the Grand Lodge.

Sustained the action of the park committee in hiring Thomas Croft to look after the parks; authorized the building of sidewalks and the planting of trees therein.

Corrected an irregularity in electing a president of the council, Alderman Burnham receiving all the votes cast.

Ordered street repairs; paid bills, etc., etc.

All the aldermen were present. After the minutes had been read, the bonds of the assessors and the fire and police commissioners were referred to the judiciary committee.

A communication from F. C. Burpee regarding the flooding of Schaller & McKee's lumber yard, because of a choked sewer, was referred to the highway committee.

Accept the invitation. The clerk read an invitation from Frank H. Jackson, keeper of records and seals of Oriental Lodge No. 22, Knights of Pythias, requesting the mayor and common council to be present at Concordia hall on May 11, at 10 o'clock a. m., to meet and welcome the Grand Lodge Knights of Pythias of Wisconsin.

On motion of Alderman McKee the invitation was accepted.

Chairman Burnham of the finance committee reported favorably on a number of bills, and they were ordered paid.

Chairman Kothman of the park committee reported that the committee had hired Thomas Croft to look after the city parks, and on his motion the action of the committee was ratified.

The following orders were adopted: By Alderman Burnham—Directing the street commissioner to serve notice on the owner of property known as Nos. 59 and 61 East Milwaukee street, to build a new sidewalk; also that the city clerk draw an order payable from the general fund in favor of Morse & Pember for \$5, money wrongfully paid for rent of Third ward voting booth.

By Alderman Kothman—That the park committee have walks built in the court house park as follows: One from South First street, commencing at South Main street to Bluff street; one west side of Bluff street between Court and South First streets; one in Fourth ward park, north side of Galea street between Park avenue and High street; purchase trees to be planted in the city parks; have the walks in the parks repaired; clean out the ditch on east side of Cherry street, between Pleasant and Center streets.

Other Orders Adopted. By Alderman Stoddard—To repair North Bluff street from Milwaukee street to the city limits and to repair North Main street, under the direction of the aldermen of the ward.

By Alderman Rice—To notify the owner or owners of certain property on Mineral Point avenue to build a new sidewalk; to build a plank cross walk across Elizabeth street on the west side of Pearl.

By Alderman McKee—That the city engineer establish a grade on Eastern avenue.

By Alderman Gilkey—To repair Racine street from Forest Park boulevard to Main street, also repair Eastern avenue from the Beloit road to McKee boulevard and the crossing on the corner of East Milwaukee avenue and South Main street.

Alderman McLean suggested that the council and the street commissioner make an agreement as to how much time property owners should have to build walks after legal notice was served. Often times, he said, the matter was allowed to lag. Mayor Thoroughgood said he thought the point was well taken.

A grade of Center street was adopted, and the following order was adopted:

Alderman Miltimore—Notifying owners of lots on South Franklin street to build new sidewalks; to clean out the tile drain at the corner of Franklin and Oak streets, on the south side of Oak; also that the clerk advertise for bids for furnishing the city with lumber, cedar posts, and sewer pipe for the ensuing year, according to the specifications used last year, bids to be in at the next regular meeting.

Ald. Miltimore then moved that a president of the council be elected by ballot, the former election not having been by ballot. Aldermen Gilkey and Miltimore were chosen as tellers. Ald. Burnham received all the votes cast and was declared elected. Adjournment was then taken.

After the meeting closed, the mayor and council conferred with the assessors regarding the work to be done this spring.

THE JANESVILLE GAZETTE

THE OFFICIAL CITY PAPER

Entered at the postoffice at Janesville, Wis., as second class matter

CYCLER'S TO FEEL
THE LAW'S GRIPELEVEN WARRANTS IN HANDS
OF POLICE.

A. M. Valentine Was In Court Today, and Pleaded Not Guilty, Saying that Carried a Whistle—Other Ten Will Be Taken In Charge at Once—List of Those "Wanted."

Eleven warrants are now in the hands of Chief of Police Hogan and eleven local cyclists will appear in the municipal court tomorrow morning to answer to the charge of disregarding the city ordinance providing that all cyclists shall have bells both day and night and lamps at night. The riders who will be arrested are:

Dr. R. J. Hart, Charles Munger, Charles Warf, Bert Palmer, George S. Parker, Charles La Pointe, William Arnold, Charles Grove, Arthur Pate and Edward Carey.

At 3 o'clock this afternoon Chief Hogan served the first warrant and A. M. Valentine was brought into court. Judge Phelps read the complaint, to which Mr. Valentine pleaded not guilty. Attorney Fred C. Burpee, who is acting as city attorney, during the absence of City Attorney McElroy then made a motion that the case be adjourned until Friday, May 7, at 10 o'clock. Mr. Valentine claims that he carries a dog whistle in his pocket, and it was not necessary, consequently, for him to carry a bell.

Chief Hogan says that all cyclists must obey the city ordinance, and that wholesale arrests will follow unless these rules are lived up to. Cyclists who ride on the sidewalk will be arrested on sight.

BEDRIDDEN.

FIFTEEN YEARS OF SUFFERING.

The Doctors Wanted Seven Hundred Dollars to Attempt the Cure.

The following is a letter we received a short time ago from Mrs. M. C. Hinkley, 602 North Mississippi St., Indianapolis, Ind.

Gentlemen:—While suffering intensely from piles, I became interested in your advertisement in one of our daily papers and procured a package of your Pyramid Pile Cure from our druggist. Contrary to any expectations, the relief was instantaneous.

I used two boxes of the Pile Cure and one of the Pills and am convinced that they are the only sure cure for piles on the market. I have been a sufferer from piles for fifteen years and have been confined to my bed about one-half of the time, expecting and wishing for death for the pain was so great.

I went to the college here and the doctors said my case was a new one to them, the great pain having brought on a large rupture, which they wanted seven hundred dollars to cut out. I was very much afraid that death would result from the blood-poisoning which they said would result from the operation.

I feel as though I can't praise the Pyramid Pile Cure and the Pyramid Pills too highly, as I am convinced that they saved my life. Before using your cure I weighed only ninety pounds and now I weigh one hundred and fifty and feel as well as I ever did in my life. You are at liberty to use this testimonial in any manner you may see fit, as I want all sufferers from this terrible disease to know that there has at last been compounded a remedy that will cure piles.

MRS. M. C. HINKLEY.

There is no need of the danger, pain and expense of a surgical operation for any form of piles. The Pyramid Pile Cure does the work without pain and is the safest and best. Remember also that the Pyramid Pills are a certain cure for constipation, acting without gripping and restoring natural action to the bowels.

The Pyramid Pile Cure is sold by druggists at 50 cents and \$1.00, and the Pyramid Pills at 25 cents, or by mail from Pyramid Co., Albion, Mich.

SECRETARY ALGER WILL NOT TALK; GENERAL DOE DENIES THE CHARGE

EX-ASSISTANT SECRETARY DIS-
CUSSES ACCUSATIONS.

REFUSES TO DISCUSS THE DOE
MATTER.

Knows Nothing About Having Been Relieved of His Duties and Never Even Heard of an Investigation by Lamont—Milwaukee Journal's Interview With Him.

Last evening's Milwaukee Journal prints the following interview with General J. B. Doe:

General J. B. Doe, who was assistant secretary of war under the Cleveland administration, was seen this morning in his office in the Pabst building, in regard to the statements reflecting on his official conduct published in morning papers. He pronounced the charges generally false and misleading.

"These attacks upon the character of officials," said General Doe, "by the partisan press have been sufficiently frequent in the past not to be the source of surprise, and they seem to call for no refutation. However, I will say that the ones to which you refer are for the most part entirely false and those that are not absolutely false are distortions of entirely unimportant and innocent occurrences."

When asked what the facts were in connection with the statement that he had been deprived by Secretary Lamont of his authority and relieved from the duties connected with the position, General Doe said: "The statement that I was at any time relieved of the duties of my post is entirely new to me and the report is entirely false so far as my knowledge goes."

When asked about the statement that he had shipped a carload of furniture belonging to the government to Janesville on an express frank, Gen. Doe replied: "I sent nothing away from the department that belonged to the government. What I did send to Janesville was a lot of government publications which had been printed for distribution."

The statement that a lot of chests were made for him from costly woods by the carpenter of the department at the expense of the government, Gen. Doe pronounced false. "What carpenter work and binding I had done was paid for by me. I had a lot of packing cases made in which to ship the government publications home, but I paid the carpenter for the cost of the material and I am in possession of the receipts for such payments. In regard to the bicycles which the article refers to, I will say that I purchased several for the messenger service of the war department, and they are probably the machines referred to. They were purchased for the service of the department; however, not for myself."

"General, this article states that Secretary Lamont made an investigation of your doings and that he required you to make restitution to the department to the amount of \$1,000 for government property which the article said you had sent away from Washington."

Gen. Doe replied, "That is entirely false."

"The article says that Secretary Lamont made an investigation and called before him several employees of the department in regard to material you are said to have packed up and he ordered the boxes opened and the material replaced on the shelves."

Gen. Doe said: "If any investigation of this kind took place I never heard of it."

When his attention was called to the statement that he had forced out of the position of chief of the supply division an old soldier, Captain Thorpe, who had held the position for a quarter of a century, in order to order to make room for Richard J. Whitton of Janesville, Gen. Doe said: "Capt. Thorpe resigned of his own free will and no pressure was brought to force him out. The first knowledge I had of his leaving the post was when his resignation was handed in. He retired voluntarily and was not removed to make room for Mr. Whitton nor any one else. It is worthy of note that Mr. Whitton's record in the department was an excellent one and that in a single year of his administration of the supply division the government was saved nearly \$40,000."

Among the statements in the article referred to was one that Gen. Doe would have been required to resign but for the influence of Senator Vilas who induced President Cleveland to do nothing in the matter. When his attention was called to this statement Gen. Doe replied: "If I was at any time retained in the department at the request or by the intervention of anybody, or for any reason other than that my services were entirely satisfactory to the president and the secretary of war, I am wholly unaware of the fact. At least both President Cleveland and the secretary expressed themselves to me as entirely satisfied with the manner in which I had performed the duties of my place. Numerous stories have been in circulation regarding my not performing any duties incident to my position. These reports have been repeatedly denied and were probably started and kept in circulation by partisan papers for political effect."

War Department Officials Are Affected With Muteness, and Will Not Speak of the Alleged Acts of the Former Assistant Secy—Sentinel's Washington Correspondent Writes.

This morning's Milwaukee Sentinel prints a dispatch from its Washington correspondent, as follows:

"I have nothing whatever to say on that subject," said Secretary Alger of the war department when asked today for a verification of the reported charges against General Joseph B. Doe, late assistant secretary of the department.

Secretary Alger's attention had been called to the published report of the charges that General Doe, while in office, had used his position to secure a number of articles from the department without cost to him. "That alleged affair took place under the last administration," continued Secretary Alger, "and I will not discuss it. My predecessors in the office treated me with the utmost courtesy, and I will now offer no criticism of them either directly or indirectly. The matter did not come up under this administration and I do not wish to discuss it."

Tongue-Tied Officials.

The tip of the secretary not to have the affair discussed by the present officials of the department, may not have been necessary, on account of the general policy of secrecy which perpetually overhangs the war department. From Assistant Secretary Melk down through the inspectors and the supply division, where the alleged petty work was done. All were silent on the subject. But the printed charges which appeared in The New York Tribune this morning, created great interest in the department, and the officials who examined them would only say that there was some truth in the report, but that it had been overdrawn.

Uncle Sam Paid For Bicycles.

The charges are that General Doe took advantage of his position to secure articles from the division of supplies, whose chief was Mr. Whitton of Janesville, a personal and political friend of Doe. The Tribune story said that Doe had secured two bicycles, one for himself, and one for Mr. Whitton on an order issued by the assistant secretary, and when the facts came to be known to Secretary Lamont the wheels were returned to the department and are now stored there. Also that Doe had a fine mahogany gun-case made in the carpenter shop of the department, and a number of fine chests, picture frames, packing cases, etc., all of which were made by employees of the department.

Not Well Founded.

It was also charged that Doe had ordered sent to his home some stationery from the supply division, some of which were recovered by the secretary, and from all the business the result was that Doe was compelled to make restitution of \$1,000 to the department.

The last story is very much doubted by officials of the department, and they are inclined to believe that, while the authority of the assistant secretary was stretched somewhat in obtaining goods from the department, the reports are exaggerated.

Among the things alleged to have been sent to his home by Doe was a number of valuable flags, but this story cannot be verified.

Friction With Lamont

The fact is there was such a report in circulation here the past winter, and it was known to a number of newspaper men that there was a friction between Doe and Secretary Lamont on account of orders which Doe had filled by the supply division, but nothing could be learned to support the rumor.

When asked, officials of the department would say: "Oh there is nothing in it except that Doe has overstepped the limits usually given to the heads of the department in ordering binding done by the division for his own use."

Some time ago, the correspondent of The New York Sun got hold of the reports and wrote an article about them, which the paper did not print, as there was no proof of the business except the gossip of the department. It appears now that either Secretary Lamont or his private secretary, John Segar, both of whom are out of the city, or some other official of the last administration, has told the story in great detail and it has appeared in the newspapers.

The fact that the last administration covered up the matter and that neither Doe nor Whitton were removed, disarmed suspicion that there was anything wrong and both men were allowed to resign by the present administration without the facts coming to light in an official way. It is the evident intention of the present heads of the department to make no attempts to let the facts be known.

Photographs Handsomely Bound.

The Tribune story is specific in detail, giving names of the persons who made the articles alleged to have been appropriated by Doe for his own use. The story which was in circulation last winter in regard to the binding done for Doe is reported by The Tribune account to have been the binding of a lot of copies of war photographs in the department, all of which are said to have been handsomely bound in Morocco.

When R. J. Whitton, of Janesville, who was chief of the supply division,

was superseded a few days ago by the restoration of Capt. Thorpe, a veteran who had been dismissed to make room for Whitton it was said Whitton had been detained in order to enable him to turn over a clear sheet of his division to his successor, but this was later explained as the customary rule of the office.

The impression one obtains from conversation with the department officials is that much of the story of the raid upon the supplies of the department by Doe and Whitton is true, but the things taken were of a trifling character, mainly things made in the shops of the department, such as the gun case and packing cases.

Doe Broke All Records.

It is said that this is no new thing in the department here, as many heads of departments take advantage of the authority to have articles made at government expense, but in this case it appears that all previous records were broken. The department was full of newspaper men today seeking facts in the matter, but little was found to verify the wholesale charges of The Tribune story.

The Star tonight in speaking of the matter said: "All of the officials of the department took their cue from the secretary and were extremely reticent. The only exception was one man, who admitted that the bicycle episode was true and said that the wheels are still in the War department storehouse. Although not so stated, it is understood that the case is closed and that Secretary Alger contemplates taking no action in the matter." The Star also asserted that the report that \$1,000 had been paid by Doe and Whitton to settle the matter is learned at the department to be not well founded.

MRS. MOWERS GIVEN A BILL OF DIVORSE

JUDGE BENNETT GRANTS HER
PETITION.

Said She Would Not Live With a Man Who Knocked Her Father's Teeth Out—Case Grew Out of the Family Trouble That Is Still Pending in Court.

Last fall, when Mrs. J. M. Mowers said that she would not live with a man who made it a point to knock her father's teeth out she meant just what she said, and this morning, when she appeared before Judge Bennett and applied for a divorce, her wish was granted and she departed from the court house as Carrie M. Mowers.

Mrs. Mowers received no alimony, but it was shown that Mr. Mowers possessed a 40 acre farm in the town of Bradford and this property was turned over to his wife.

The granting of the divorce this morning is the outgrowth of family trouble that has been the basis of court action for several months. Mrs. Mowers, previous to her marriage, was known as Carrie Dotznerod, and is the daughter of Mr. and Mrs. Henry Dotznerod who reside on a farm near Clinton.

Her Father Assaulted.

When she was but eighteen years of age Mowers made love to her and they were afterward married. After nine years had elapsed, it is said, Mowers began to drink. Last summer, it is charged, while returning from Clinton after one of these alleged indulgences he drove to the farm of his father-in-law and assaulted Mr. Dotznerod, it is alleged, cutting his head in several places; breaking his nose, and knocking some of his teeth out. Mowers was then arrested, and after a four days' trial in this city the jury disagreed.

The matter was then left to Judge Phelps, and he found the defendant guilty. The case was then appealed, and is now on the circuit court calendar.

Sided With Her Father.

At the time of the assault, Mrs. Mowers sided with her father, and informed her husband at that time that she would not live with him. Since that time Mrs. Mowers has quietly been collecting evidence which she produced today in court. Mrs. Mowers is twenty-eight years old. She is the mother of two bright children—a boy of eight years and a girl of five. Mowers is thirty-nine years of age.

Attorney B. D. Barnes, of Delavan, who defended Murderer Howe at Elkhorn, appeared for Mrs. Mowers, while Attorney J. J. Cunningham of Mahoney & Cunningham appeared for the defendant.

Other Court Cases.

In the divorce case of Emma Whitsett vs. Milton Whitsett et al., the court ordered that the defendant pay to E. D. McGowan, the plaintiff's attorney, \$27.50 for support and maintenance of the plaintiff, and \$20 for attorney fees.

In the matter of the voluntary assignment case of George Van Antwerp, the court ordered that the report be confirmed.

In the foreclosure case of David C. Roberts vs. Henry Macrae, the court ordered that plaintiff have judgement for \$706.12 damages, \$25 solicitors fees and costs taxed at \$150.61.

SAVE \$14,000 A YEAR FOR THE PEOPLE

INSURANCE RATES REDUCED
TWENTY PER CENT.

Saving Will Pay All the Expenses of the Fire Department and Water Service—Agents and Officers of the Department Work in Harmony to Get the Concession.

Insurance rates in the city of Janesville, have been reduced twenty per cent. by a "general order" received today.

This reduction means a saving to Janesville people of nearly \$14,000 a year, or a sum sufficient to pay all the expenses of the fire department and water service.

The stock companies have, it is said, been collecting about \$62,000 in premiums per annum, while mutual companies have been taking in about \$8,000 more, making the total amount of premiums paid, \$70,000 approximately.

The amount of premiums paid has fallen off about \$10,000, for various reasons, of late.

The insurance agents and the officers of the fire department have been working for this reduction for some time past, and the issuing of the order is a compliment to both—showing that the agents have the interests of the people at heart, and that the efficiency of the fire department is recognized.

The reduction took effect on May 1, and holders of policies written since the order was issued, and before notice was received, will get a rebate.

thinks he will try buying his clothes of some one else other than The Old Reliable Tailor who has served him well. He gives his order to some traveling shark who takes his measure and has the suit made in some sweat-shop in Chicago. When the suit arrives the buyer sees at once that the clothes are poorly made, have the cheapest of trimmings, and don't pretend to fit. Of course they came C. O. D. and he has them on his hands. Then they are taken to some small tailor to have alterations made which all cost money. After they have been altered several times they still don't fit and this "occasional" man throws them aside or gives them to some tramp.

How much money has this man saved?

Had he gone to some reliable tailor and ordered a suit well trimmed and well made by experienced workmen for from \$20 to \$25 he would not only be money ahead but would have been saved much annoyance and trouble and would have the satisfaction of knowing that he got his money's worth and could wear a suit that he was proud of.

The Rest Tour Association.

The latest annual report of the Woman's Rest Tour Association, of which Mrs. Julia Ward Howe is president, brings that admirable organization to the end of its fifth year of existence and emphasizes its establishment upon a permanent basis. It counts now between 600 and 700 members, scattered all over the country, who are pledged to its interests in the co-operative and mutually helpful spirit which is the raison d'être of the sisterhood. To women planning trips anywhere, at home or abroad, into unknown districts the association offers company or chaperons if desired, a selected and exclusive lodging list not to be got elsewhere and suited to all purses, a handbook of foreign travel compiled from practical experience and other helpful information at libitum. From its traveling fund money is loaned, under the supervision of its finance committee, to provide vacation trips for women in need of rest and change. The Elizabeth O. Robbins Memorial library is the gift to the association of an extended collection of standard guidebooks for the use of members. Some of the well known women interested are Mrs. J. Montgomery Sears, Mrs. Kate Gannett Wells, Mrs. Both-Hendriksen, Miss Louise Ingogen Cutney and Mrs. James T. Fields. The headquarters of the association are at 264 Boylston street, Boston.—Philadelphia Ledger.

A Woman Scientist.

Miss Jennie A. Estes had the honor of being the only woman who took an active part in the fourth annual exhibition of the New York Academy of Sciences, which recently closed. Miss Estes came to the exhibition, out of pure love of the cause, to assist Professor Dwight in the exhibition of a wonderful machine invented by himself, called the pisonome. It is used for cutting very thin rock sections for examination under the microscope. They can be cut as thin as the 1,100 part of an inch and are then mounted between two plates of glass.

Miss Estes was Professor Dwight's pupil at Vassar college and did, he says, particularly good work, much of which was sent to the Chicago exposition. One of the labels which he had on his exhibits read, "The two finest specimens here were prepared by Miss Jennie A. Estes of Brooklyn."

The only other feminine work at the exhibition was a collection of water colors depicting the flora of Australia and New Guinea by Mrs. Ellis Rowan. Twenty gold medals have been awarded to the artist at various places for these drawings.—New York Tribune.

As a Public Speaker.

Woman's abilities as a public speaker seem to be suddenly discovered these days by several surprised journalists. Mr. Dana, in a recent editorial in the New York Sun, says:

"We doubt whether there were in any other winter as many speechmakers and essay readers of what used to be called the 'softer sex' as there have been the past winter. We think that as many as 100 of them have favored the New York public within the past three months, discoursing upon science, literature, the drama, reform, philosophy, the arts and other high themes. We think that there are in this country more women able to deliver such discourses than could be found in all the other countries of the earth. A fair proportion of them are good scholars, reasoners and thinkers, full of useful wisdom. It is a pleasure to listen to a speech, lecture or essay that is the production of such a woman. American women in these times are engaged in all kinds of business, and it is their privilege, or indeed their right, to engage in this kind. How melodious oftentimes is the voice of a woman of understanding!"

Lady Aberdeen on Clubs.

The Countess of Aberdeen, president of the National Council of Women for Canada and wife of the governor general of Canada, delivered the address at the quarterly convocation of the University of Chicago on April 1. Lady Aberdeen said that the idea of coeducation and co-operation should be accepted throughout life. The forming of associations of women has been necessary for training and strength, but should be regarded as a temporary expedient to meet a temporary need. "Man was not meant to live alone," she said, "but still less was woman. It may be well and desirable at the present time to have our women's clubs and councils, and let us put our best effort into them to make them produce their best fruit, but let us also remember that they are but a means to an end and that the redemption of the race can only be compassed by men and women joining hands and making common cause in every department of life—not both necessarily doing the same work, but combining to do each their own part of the whole together."

Smaller Evening Sleeves.

For a long time past the sleeves of our evening frocks have become "small by degrees and beautifully less," and now they seem likely to vanish altogether and give place to the simple shoulder straps, bunches of flowers or bows of ribbon, always regarded with affection by those who are the happy possessors of beautiful arms. A charming dinner dress which has just been completed is arranged in turquoise blue brocade, with actual shoulder straps of darker blue velvet and no further vestige of a sleeve of any kind. In this instance, for once in a way, a skirt of turquoise blue brocade is perfectly plain, while the bodice has a bolero of real lace, caught up in the center with a big bow of dark blue velvet drawn through a large square buckle of diamonds, says Madam. Bordering the velvet shoulder straps, on the side farthest from the arm, there are masses of La France roses, which relieve wonderfully the somewhat severe style of the gown.—New York Telegram.

Under Lock and Key.

It is well known that a great many barristers in the Temple have been having a bad time during the last year or so. One evening last winter a certain young barrister—now a Welsh M. P.—went across to the Inner Temple library. He was surprised by the sudden appearance of his errand boy, who was looking very excited. "If you please, sir," the boy gasped, "a gentleman is waiting for you at the chambers with a brief! He can't get out, sir, I've locked him in!"—Tit-Bits.

Son—Ain't you going to let me fly it, pop?

Father—No; it's too big for you to manage.

Son—Then I guess I'll go around to Dolph's and shoot marbles.

Father—You stay just where you are. Do you suppose I want the neighbors to think I am flying a kite for my own amusement?—Chicago Tribune.

Jack—No. I got disgusted. She has such a coarse laugh.

George—I never noticed that.

Jack—You would if you'd been within hearing when I proposed to her.—Odds and Ends.

\$800 IN GOLD DROWNS A MAN.

At the burning of a steamboat on the Hudson river many years ago, many of the passengers were drowned. Among the bodies brought up from the bottom of the river by grappling was that of a man known to have been an excellent swimmer. Around his waist was a belt containing nearly \$800 in gold. That told the story.

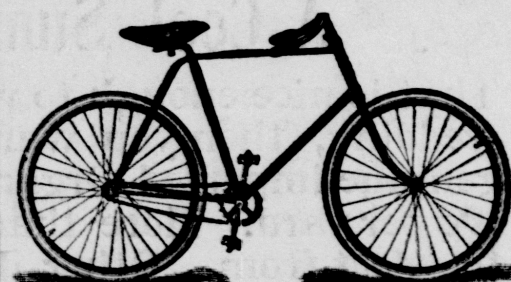

"In old and chronic cases of indigestion (dyspepsia or gastritis—it is all the same) the sufferer develops a great variety of symptoms and often dies—poisoned by the products of his own torpid and inflamed stomach. His food, instead of being digested, and so furnishing strength and physical substance, ferments and putrefies within him. The chief process of life is arrested at a vital point. The more he eats the worse off he is. And yet unless he can be fed he must also perish. People do so die, daily, by thousands, but we doctors seldom have the moral courage to save the cause its true name lest we should be laughed at for our inability to cure so 'simple' a thing as indigestion. Simple? Why, it is the capstone of all complaints—and the mother of most of them."—So writes a famous English physician.

Some of the symptoms alluded to are these: Loss of appetite; distress after eating; heartburn and palpitation; giddiness; foul taste in the mouth; the rising of nauseous acids and gases into the throat; furred tongue; spots before the eyes; unaccountable weariness and fatigue; sluggish circulation; weakness and nervous prostration; constipation or diarrhoea; discolored skin, etc.

The sufferer's friends often advise him to cheer up; to throw off his lethargy and eat freely. Bad advice. He knows better. "No," he answers, "I cannot; my food does me no good." He is right. Food now is gold in the pent swimmer's belt.

Take light nourishment, followed immediately by a dose of the Shaker Digestive Cordial—a new and radical remedy discovered and prepared by the Shakers of Mt. Lebanon, N. Y.—the essence of medicinal herbs and plants cultivated by them alone. Then continue with it. Relieves at once and soon cures. Pleasant to the palate and adapted to all constitutions.

Trial bottles—which prove its merits—at ten cents. For sale by nearly all druggists.

LIBERATED!

An Indian's love, when it once exists, is unparalleled. He would go through fire and water to give a friend freedom. Not necessarily personal liberty, but an emancipation from the slavery of pain. Are you a dyspeptic? Do you realize that that

terrible gnawing at your vitals, that faint feeling, that continual growing weaker, that nervousness, that everlasting longing for food that never satisfies, and many other similar symptoms, are but the distant foot steps of the fast approaching, most relentless of executioners—death from starvation. That's actually the outcome of dyspepsia—death (eat what you will), from an inability of the stomach to absorb nourishment from food, or of the blood to convey

such nourishment to different parts of the body for the replenishment of tissue. But there is hope; thousands have been cured, you can be. Look to the Indian for aid. His knowledge of medicine given him by nature is unprecedented.

Kickapoo Indian Sagwa,

Nature's own remedy, simple, harmless, but effective, always cures all stomach troubles. It purifies the blood, restores a healthy action to the stomach, liver and kidneys, and by invigorating these great organs the suffering dyspeptic is brought back from a life of misery to the sunshine of strength and renewed life. Don't hesitate, avail yourself of this last chance while there's yet time. Your druggist has this wonderful preparation. Take no substitute. A good result is assured, and its price, the price of health and happiness is within the reach of all, \$1.00 a bottle; 6 bottles for \$5.00.
